EMOZIONI IN SUPERFICIE

INTERNO 9

Immagina un complesso architettonico con uno stile moderno, minimalista, dove lo sguardo incontra strutture lineari, armonie di volumi, contrasti materici, anche su grandi superfici. L'eleganza della semplicità si amalgama all'irriverenza indomita del metallo che, con affascinante rudezza, si fa protagonista del paesaggio. Interno 9 si completa con WIDE, il nuovo programma di grandi formati in soli 7 mm di spessore.

Imagine a contemporary residential complex with a minimalist feel, where the viewer's gaze is drawn to linear structures, harmonious forms, and contrasting textures. Stylish simplicity is paired with the untamed irreverence of weathering steel, which - with a stunning coarseness - becomes a key feature of the landscape. Interno 9 is complemented by the new WIDE series of large sizes in a thickness of just 7 mm.

INTERNO 9

Wide è il nuovo programma di lastre ceramiche a 7 mm di spessore prodotte da ABK con tecnologia CONTINUA+. Lo spessore ridotto e le grandi dimensioni permettono il rivestimento di ampi spazi residenziali e commerciali, compresi i volumi architettonici creati per la personalizzazione e le esigenze specifiche dei vari ambienti.

Wide is ABK's new collection of 7 mm thick ceramic slabs produced using CONTINUA+ technology. Thanks to their small thickness and large size, these slabs are ideal for use in large residential and commercial spaces, including architectural volumes designed for custom applications.

Fusion

METAL
STONE
MARBLE
WOOD

Attraverso le molteplici ispirazioni offerte dalla gamma ABK, è possibile personalizzare ogni ambiente donandogli una sensazione materica sempre differente.

Metallo, pietra, marmo e legno si combinano sapientemente tra loro, dando vita a sorprendenti contaminazioni stilistiche per architetture estremamente contemporanee.

The many inspirations behind the ABK range can be used to customise any space and create constantly changing material effects.

Metal, stone, marble and wood are skilfully combined to create a surprising crossover style ideal for highly contemporary architectural solutions.

CERAMIC R-EVOLUTION

Il progetto WIDE ABK parte dalla rivoluzionaria tecnologia produttiva CONTINUA+, che permette di produrre lastre in gres porcellanato robuste e leggere allo stesso tempo, grazie allo spessore ridotto di 7mm, fino alla dimensione record di 160x320 cm. Il nuovo sistema di pressatura prevede la compattazione a secco delle materie prime e consente di ottenere superfici particolarmente apprezzabili sia per la qualità estetica che per le performance tecniche.

ABK's WIDE collection consists of tough yet lightweight porcelain slabs with a thickness of just 7 mm and a record size of 160x320 cm produced using the revolutionary CONTINUA+ technology. The new pressing system involves dry compaction of raw materials and is able to produce surfaces that combine excellent aesthetic quality with outstanding technical performance.

WIDE & STRONG

WIDE è perfettamente idoneo sia per il rivestimento che per la pavimentazione, in ambito residenziale e commerciale. Lo spessore 7 mm consente di mantenere un'ottima resistenza al carico di rottura reale.

WIDE is ideal as both a floor and wall covering in residential and commercial projects. The 7 mm thickness enables it to maintain excellent breaking strength in real situations.

EASY AS WIDE

La formulazione dell'impasto, unita alla compattazione a secco e alla cottura in forni di nuova concezione, genera un gres particolarmente facile da tagliare e lavorare.

The chemical formulation of the body combined with the raw material dry compaction process produces a porcelain slab that is easy to cut and work with.

WIDE IS LEVELING

La combinazione fra impasto ad elevata plasticità, spessore e grande dimensione, dona particolare elasticità al prodotto, per ottenere risultati di posa sempre impeccabili.

The combination of a body with high plasticity, thickness and dimensions makes for a highly elastic product that delivers consistently flawless results.

WIDE MEANS GREEN

L'impasto contiene il 40% minimo di materie prime di qualità recuperate da altri processi produttivi, per questo i prodotti WIDE possono essere accreditati all'interno del sistema internazionale LEED.

As the body contains a minimum of 40% high-quality raw materials recycled from other production processes, WIDE collection products qualify for LEED international certification.

LITE GOES WIDE

Lo spessore di 7 mm consente di ridurre il peso per mq con interessanti vantaggi in termini di maneggevolezza e movimentazione.

The 7 mm thickness results in a reduced weight per square metre, bringing significant advantages in terms of ease of working and handling.

EVERYWHERE YOU LIKE

Tenendo conto delle principali qualità del materiale, tra cui la robustezza, la resistenza agli sbalzi termici, oltre allo spessore contenuto e alla facilità di lavorazione, le grandi lastre WIDE ampliano la destinazione d'uso del gres porcellanato. Sempre meno fughe e sempre più spazio alla creatività di progettisti e interior designers, che grazie ai prodotti WIDE possono apprezzare la versatilità di una ceramica senza più confini.

Taking account of the material's key qualities, including strength, thermal shock resistance, low thickness and ease of working, the WIDE large-size slabs extend the fields of use of porcelain. The WIDE collection has fewer joints while giving enormous creative freedom to architects and interior designers, who appreciate the versatility of this ceramic surface without limits.

Articoli realizzati in alluminio per l'uso a parete, adatti a raccordare piastrelle di diverso spessore (9 mm / 7 mm)

Aluminium strip for use between wall tiles of different thicknesses (9 mm / 7 mm)

* Decorazione realizzata in legno trattato e garantito per l'utilizzo nell'ambiente bagno. Il tipo di verniciatura fa in modo che non tema l'umidità, rendendo possibile la fugatura con normali stucchi ceramici epossidici. Dopo la posa in opera e la stuccatura, pulire il prima possibile con acqua avendo cura di asportare ogni residuo di stucco.

* Decorative tile made in treated wood, guaranteed also for use in the bathroom. This kind of varnish protects from humidity, therefore it's possible filling with standard epossidic filler for ceramics. After placing and filling, please clean whitish water as soon as possible, carefully removing every mark left by the filler.
