

UNIKA

MUCH

MORE

THAN

ONE.

Unika esprime l'autenticità delle esperienze vissute attraverso una ritrovata armonia degli opposti, si fa interprete di un lifestyle che privilegia i contrasti, superando il confine fra "antico e moderno", si ispira ai materiali che hanno una forte storicità, facendone emergere un fascino ritrovato, aperto al dialogo con l'architettura contemporanea. Tracce di pietre millenarie, abilmente miscelate a tratti di cementificazione usurata, creano un affascinante gioco di elementi e stratificazioni.

Unika is an expression of genuine experience shaped through a return to the harmony of contrasting elements, of a lifestyle where opposites have a central role to play, pushing back the frontier that separates the ancient from the modern. Inspired by materials with a lengthy history behind them, Unika brings out all their new-found charm, engaging in an effective dialogue with contemporary architecture. Traces of age-old stones, skilfully combined with stretches of worn concrete, are able to create a delightful layering effect comprising a variety of elements.

UNIKA

MUCH MORE THAN ONE.

Unika racconta uno stile fatto di accostamenti mai scontati, incontri insoliti fra materiali di recupero e preziosi. Questa libera scelta interpretativa si adatta perfettamente a contesti molto diversi fra loro, luoghi e stili differenti trovano un efficace strumento di valorizzazione dello spazio in combinazione con altre sensazioni materiche.

Unika is the expression of a style created through original combinations, unexpected encounters that bring precious and recycled materials together. This is a free interpretation perfectly able to adapt to a variety of settings, offering different locations and styles an effective option for enhancing space, in combination with other material sensations.

Atmosfere rarefatte, accostamenti materiali, pietra, ferro, legno, luoghi ampi che si aprono alla contaminazione, in un costante scambio di senso.

Questi spazi dove la memoria industriale si fonde con l'abitativo, diventano fucine di nuove sensazioni, nel segno di una continuità stilistica fra indoor e outdoor, senza perdere mai efficacia comunicativa.

Subtle, refined atmospheres, material combinations, stone, iron, wood; spacious settings with crossover aspirations, sensations ready to engage constantly with one another.

Spaces where industrial and residential tradition meet, sparking and fuelling new sensations, with the emphasis on seamless style options that blend indoors with outdoors, creating an effective dialogue between the two every time.

MATERIAL. LINEAR.
ARCHITECTURAL STYLE.

Linee pure, forme dense e geometrie nette danno vita a spazi di passaggio fatti per accogliere parole, immagini, pensieri.

Il naturale respiro della materia si fonde con le esigenze di comunicazione più attuali per ritrovare un'idea antica di incontro, in cui il tempo scorre lasciando piacevoli tracce di vissuto.

Pure, clean lines, sharply defined geometries and dense shapes give life to communicating areas designed to welcome words, images and thoughts.

The natural, living heart of the material blends with today's communication needs, seeking a return to an age-old idea of an encounter, when time once flowed smoothly leaving an agreeable trace in its wake.

20 MM

Lastra di 20 mm realizzata con la tecnologia del gres porcellanato, unisce la facilità di posa alle eccellenti prestazioni tecniche.

20 mm slab made using technical porcelain stoneware, combining ease of installation with excellent technical performance.

POSA TRADIZIONALE
la posa tradizionale è ideale per la realizzazione di pavimentazioni carrabili.

TRADITIONAL INSTALLATION
traditional installation is ideal for floorings that will be driven over by vehicles.

POSA SOPRAELEVATA
La posa sopraelevata consente il drenaggio delle acque piovane e la possibilità di ricavare uno spazio ispezionabile per il passaggio di impianti elettrici.

RAISED INSTALLATION
Raised installation enables rainwater to drain away and accessible space to be created for the inspection of electrical wiring.

A SECCO SU GHIAIA
La posa su ghiaia permette il perfetto drenaggio delle acque piovane.

DRY INSTALLATION ON GRAVEL
Installing on gravel enables perfect drainage of rainwater.

A SECCO SU ERBA
La posa diretta su erba permette di creare percorsi e camminamenti integrandosi perfettamente nell'ambiente.

DRY INSTALLATION ON GRASS
Installing directly on top of grass enables the creation of paths and walkways that blend in perfectly with the surroundings.

A SECCO SU SABBIA
La posa su sabbia permette di creare percorsi e camminamenti per spiagge e stabilimenti balneari.

DRY INSTALLATION ON SAND
Installing on top of sand is ideal for creating paths and walkways on beaches and beach bars.

WALL & PORCELAIN

UNA NUOVA CONCEZIONE DEL RIVESTIMENTO CERAMICO.

Abk ha pensato a una nuova idea di rivestimento in gres porcellanato, considerato come un elemento a se stante dal quale scegliere diverse tipologie stilistiche: dallo stile neutro alle campiture piene, dai mosaici lisci ai muretti tridimensionali, all'iperdecorativo con progettazioni di decorazioni a grande dimensione.

WALL & PORCELAIN coniuga le migliori caratteristiche del porcellanato quali resistenza, carico di rottura, grandi formati con le più funzionali caratteristiche dei prodotti da rivestimento come peso, facilità di posa e di lavorazione. È ideale come complemento da abbinare alle diverse tipologie estetiche di pavimenti in gres porcellanato tradizionale.

NEW CERAMIC WALL COVERING CONCEPT.

Abk has conceived a new idea for porcelain wall coverings: an element in its own right, available in a wide range of styles: from the neutral style of solid colour backgrounds, from smooth mosaics and three-dimensional low walls to the ultra decorative style with large size decoration designs.

WALL & PORCELAIN combines the best features of porcelain stoneware, such as resistance, tensile strength and large formats with the most functional characteristics of wall coverings such as weight, easy installation and handling. It is ideal to be combined with the different aesthetic solutions of traditional porcelain stoneware floor tiles.

CHARACTERISTIC

Piastrelle di grande formato, tutte con bordo RETTIFICATO.

Tiles with large size, all with RECTIFIED edges.

FACILITÀ di posa per maneggevolezza e MAGGIORE lavorabilità del prodotto per il posatore.

EASY to lay and handle and EASY-TO-WORK by the fitter.

MINORE peso e spessore per ridurre le problematiche di trasporto.

REDUCED weight and thickness to decrease transport problems.

MAGGIORE aderenza del prodotto alla superficie per le caratteristiche di elasticità del prodotto e per il peso.

SUPERIOR adherence of the product to the surface thanks to the product elasticity and weight.

Tutti i prodotti sono rettificati a secco per RIDURRE l'impatto ambientale.

All products are dry rectified in order to REDUCE the environmental impact.

MAGGIORE isolamento termico ed acustico, le onde sonore sono assorbite e non rimbalzate.

IMPROVED thermal and acoustic insulation: sound waves are absorbed and do not bounce off.

Certificazione LEED per riduzione del consumo di materie prime naturali, riduzione del materiale da conferire in discarica, utilizzo di materiali derivanti da altre lavorazioni.

LEED certification for reduced consumption of natural raw materials, reduction of material to be dispatched to the landfill, use of recycled material resulting from other working processes.

LA GARANZIA DI UN FUTURO GREEN BUILDING PASSA ATTRAVERSO LA QUALITÀ ECO-SOSTENIBILE.

Da azienda sensibile alle tematiche ambientali, ABK si è sempre preoccupata di mantenere i parametri che regolano i processi industriali al di sotto delle normative, composto al 40% minimo da materiale riciclato recuperato da altre lavorazioni industriali. ECO-BODY è ufficialmente certificato per recepire gli standard LEED (Leadership in Energy and Environmental Design) il sistema di rating internazionale delle performance ambientali che in edilizia promuove la progettazione sostenibile riguardante l'intero edificio per ridurre l'impatto ambientale per tutto il suo ciclo di vita. Tutte le collezioni ABK che utilizzano questo speciale impasto certificato, riportano nella pagina riepilogativa l'esclusivo logo ECO-BODY, che oltre ad indicare il 40% minimo di materiale riciclato, ne evidenziano la compatibilità col sistema di crediti LEED.

ABK è membro di GREEN BUILDING COUNCIL ITALIA, l'associazione italiana dei leader che operano per trasformare il mercato dell'edilizia verso la sostenibilità ambientale e per costruire comunità vivibili. I soci GBC Italia promuovono la responsabilità ambientale, economica e sociale innovando il modo in cui gli edifici sono progettati, realizzati e utilizzati.

THE FUTURE OF GREEN BUILDING IS GUARANTEED BY ECO-SUSTAINABLE QUALITY.

As a company that cares deeply about environmental issues, ABK has always endeavoured to keep its parameters below the legal limits for manufacturing processes, utilising a minimum of 40% recycled material recovered from other industrial processes. ECO-BODY is officially certified for access to LEED (Leadership in Energy and Environmental Design) credits, the international rating system for environmental performance which promotes sustainable design in the construction industry with a view to reducing the overall environmental impact of buildings over their entire life cycle.

All ABK collections made with this special certified mix are identified in the contents page with the exclusive ECO-BODY logo, which in addition to indicating a minimum of 40% recycled material, underlines the product's compatibility with the LEED credits system. ABK is a member of Italian GREEN BUILDING COUNCIL, the association of top players working to transform the building market towards sustainability and to build liveable communities. GBC Italian members promote environmental, economic and social responsibility, innovating buildings in terms of engineering, design, manufacturing and use.

The system is based on credits awarded for each of the sustainability requirements met by the building. The sum of the credits determines the level of certification obtained. Although LEED certification is awarded to buildings and not single products, ceramic tile products contribute to the achievement of LEED credits.
